The Canvas Migration Process

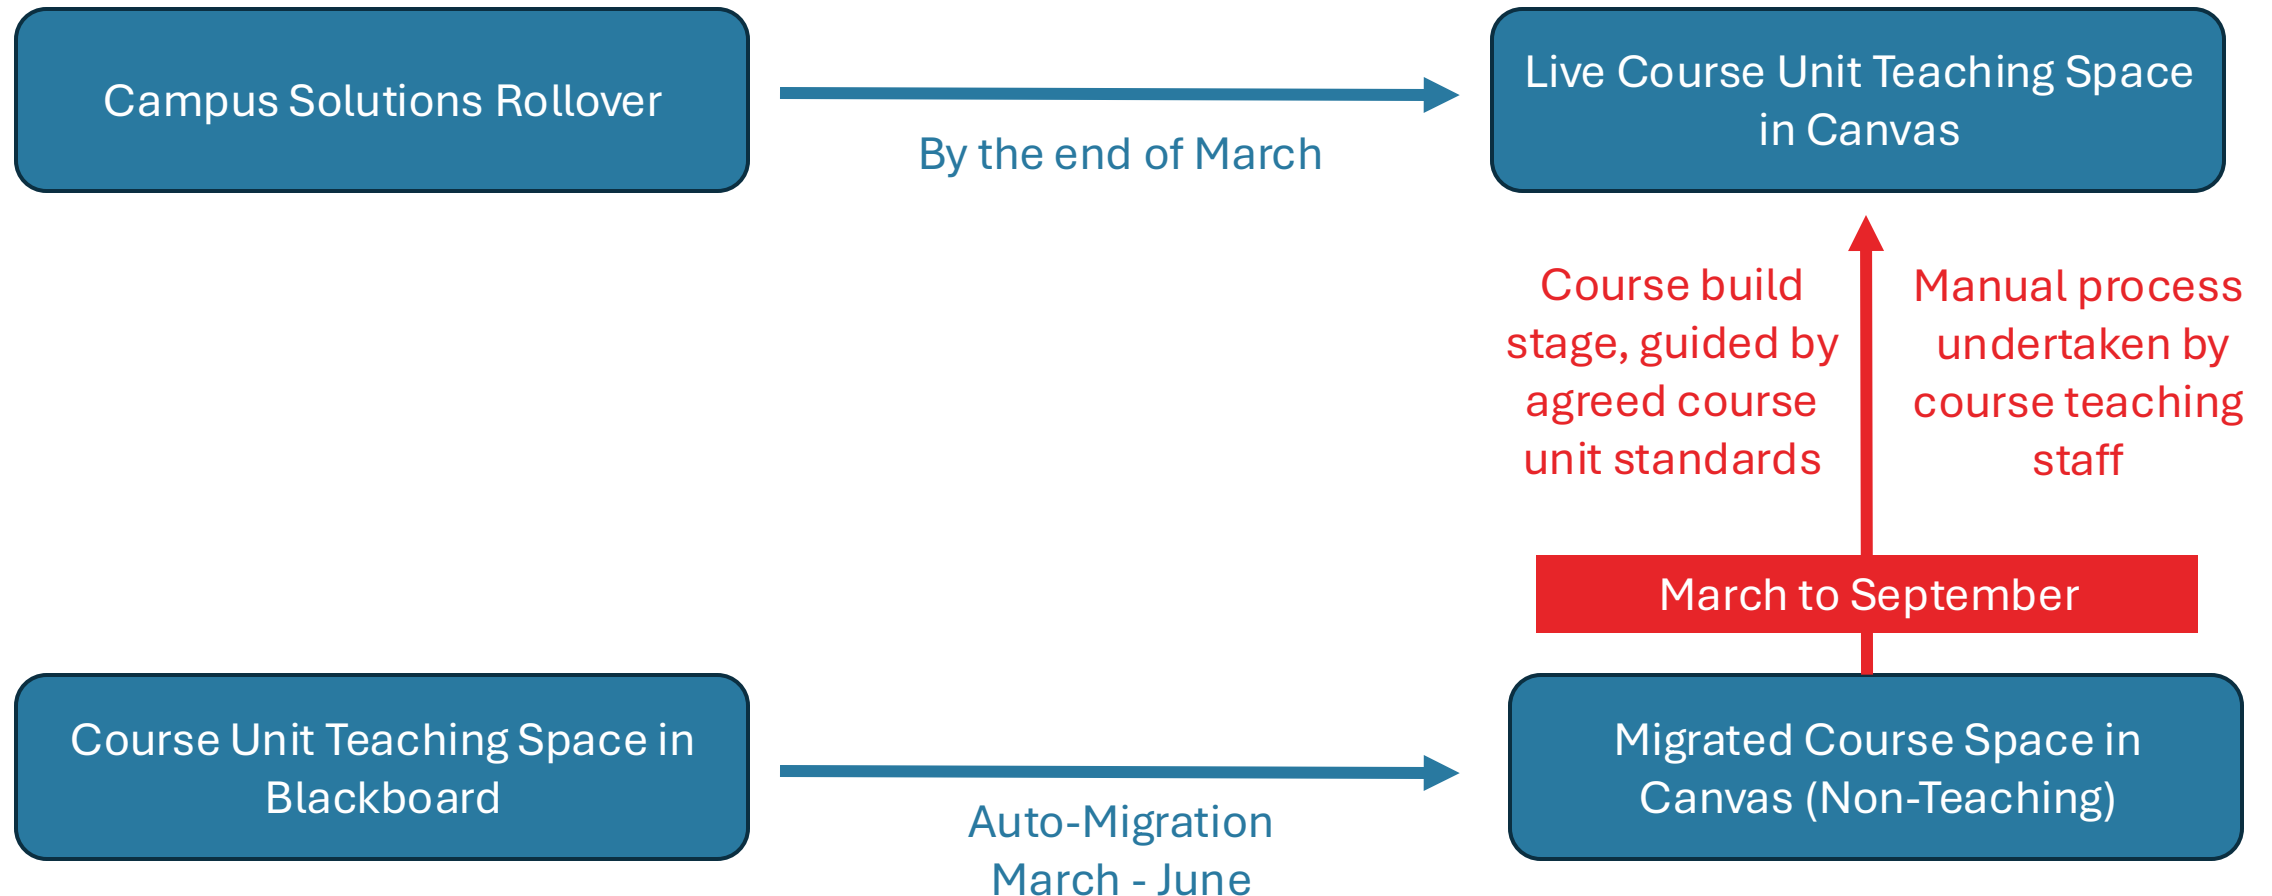

The Course Migration Process

- Semester 1 units are to be migrated in March
- Semester 2 and full year units are to be migrated in June
- Community spaces – TBC

- All course units will contain the standard template structure
- A course unit standards document will be circulated to explicitly explain how content within units should be structured within that

= consistency across courses and better student experience!

Moving from Blackboard to Canvas - Migration

TLSE Training Pathways

TLSE Training Pathways

- Team training pathways are being determined in line with the roles and responsibilities of the individual teams
- Future training sessions to take place on campus
- Some sessions are still to be confirmed and agreed – watch this space!
